

MAASEUDUN TULEVAISUUS

www.maaseuduntulevaisuus.fi

Media card 2014

Maaseudun Tulevaisuus is the largest specialist newspaper for agriculture and forestry in Finland. Also, it is the second biggest of all daily newspapers with a circulation of 81 774 (The Finnish Audit Bureau of Circulations (FABC) 2012) and a readership of 313 000 (Source: National Media Research, KMT Autumn 2012/Spring 2013). The paper comes out three times a week; on Mondays, Wednesdays and Fridays reaching over 90 % of all farmers in Finland.

Metsänomistaja is a special issue of Maaseudun Tulevaisuus, that comes out four times a year: February 26th, March 26th, September 24th and November 12th. The issue's edition is over 300 000, and it is mailed closed to all forest owners in Finland.

Technical information

Format broadsheet

MAASEUDUN TULEVAISUUS

www.maaseuduntulevaisuus.fi

Print method	offset			
Material width	1 column	44 mm	5 columns	236 mm
	2 columns	92 mm	6 columns	284 mm
	3 columns	140 mm	7 columns	332 mm
	4 columns	188 mm	8 columns	380 mm

The height of the column in the paper is 510 mm.

Print area 1/1 page = 8 x 510 = 4080 mm column.

Print area 2/1 page (Double page spread) = 776 mm width x 510 mm high
(recommendable storage format is EPS)

Front page size is 8 x 460 mm (380 mm x 460 mm)

Minimum size for 2- and 4-colour ad is 200 mm column.

Supply of material

The production process of Maaseudun Tulevaisuus is entirely digital. Pagemaking (PC) is in electronic format up to plate making.

Material specifications

- screen width 40 lines per cm
- resolution 200 dpi
- colour photographs as CMYK images in format EPS, TIFF or JPEG
- offset ink set K4, S4, P7 for newspapers used in printing

Material format

1) Closed format (PDF)

The recommendable storage format for complete materials, which helps to avoid printing problems caused by differences in the hardware and/or software of the producer of the material and the printing house. The content of the material is inaccessible to the newspaper, an altered advertisement always requires a new PDF file. PDF files are created by using Acrobat software program.

2) Document format

The finished advertisement is delivered to the newspaper in document format. All photographs and logos to be included in the advertisement must be attached. This form requires compatibility of the software and fonts of the producer of the material and the newspaper. The document may be delivered: Illustrator and Photoshop.

Fonts

Adobe FontFolio 9.0 fonts are used. In case special fonts are used in the advertisement, they are to be converted into paths.

Paper copy and accompanying note

The material delivered in electronic format must always be accompanied by a paper copy and accompanying note, which provides the information necessary for the printout: program and program version as well as the used fonts.

Modes to deliver the material

- as a document on disk 3,5", Zip, CD, DVD
- via e-mail (max 10 Mb): ilmoitus@maaseuduntulevaisuus.fi
- data transfer program for large materials: Fetch (Mac) or ftp (PC)
- packing Winzip- or Stuffit Expander programs
